WORK EXPERIENCE

SEP 2019 to PRESENT

AMPLICADE GMBH (CURRENT CLIENT: Galeria Karstadt Kaufhof)
SENIOR FULL STACK DEVELOPER (Cologne, Germany)
Blockchain development for automated contract and payment management based on IoT data consumption and processing, including front and back-end development.

Galeria Karstadt Kaufhof (Essen, Germany) July 2020 – Present
Pioneered the development of FotoFlow Application using Xamarin with Prism Framework. This app is used internally to help with the process of producing photos for the products to be posted in the Galeria Web Store.

After the successful development of the app, I moved to the back-end team and was part of the team that developed the fastest Product Information System. It is based on cloud-based cloud-native architecture that is highly scalable. I am also the lead programmer of the sub-project called Content Integration Layer. Its main purpose is data enrichment and collection of product information from different aggregators and suppliers which includes Fashioncloud, Lego, Icecat, Jockey, ECC etc.

RytleX GmbH (Cologne, Germany)
Developed Logistics App using Xamarin. This app is used by riders to deliver goods from one place to another. Also developed the Web Portal of the app using Angular

AUG 2015 to SEP 2019 5 yr 1 mo

MEDICLINIC SOFTWARE
SENIOR FULL STACK DEVELOPER EUROPE (BUDAPEST, HUNGARY)
Developed a Web-based medical booking and claims management system. Developed Mobile Application Development of the Booking System and also do Website Administration and Data Integration

FULL STACK DEVELOPER ASIA PACIFIC (MANILA, PHILIPPINES)
Code and test programming for in-house software programs. I also debug code for existing programs based on immediate need. Conduct end-user training upon completion of software and develops databases, programs and procedures necessary to integrate and/or implement the system. I also help migrate data from clients' legacy systems.

APR 2011 to AUG 2015 4 yr 4 mo

PHILIPPINE LONG DISTANCE TELEPHONE COMPANY (PLDT)
BUSINESS INFORMATION ANALYST
Provide business reports to senior management to streamline business processes and develop computer programs to automate in-house reporting.

QUALITY ASSURANCE ANALYST
Drafted quality assurance reports for the attention of middle management and synthesize findings, identify potential quality issues. Also, analyse raw data to find user and system errors.
